

PRODUCT CATALOG

ARI Enerji was established in 2009 in Aksaray and operates as a high-end industrial brand delivering value through its expert workforce, fast production capabilities, and reliable service in electrical, engineering, panel manufacturing, and industrial basket solutions. All of our production processes are carried out in accordance with European quality and safety standards.

OUR MISSION

To deliver innovative, high-quality, and on-time solutions that create long-term value and ensure unconditional customer satisfaction.

OUR VISION

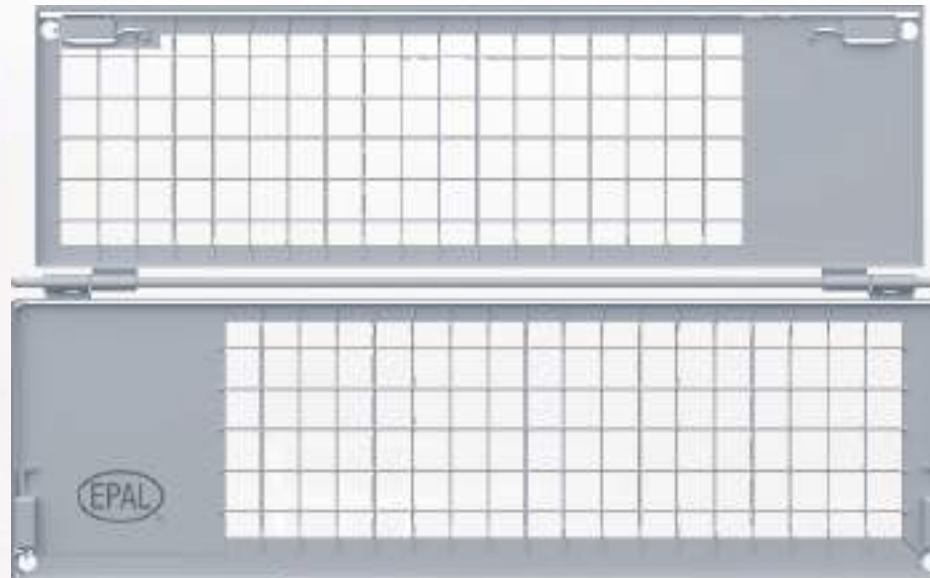

To be a leading and trusted reference brand in the industrial basket and panel manufacturing sector by combining technology, efficiency, and excellence.

Since 2009...

Our lids are manufactured for gutterbox systems in accordance with UIC 435-3 (EUR Box Pallet) standards. Throughout the production process, internationally recognized UIC 435-3 (EUR Box Pallet) manufacturing criteria are applied, and material selection as well as structural design are defined accordingly.

As a result, our lids offer long service life, high strength, robust construction, and reliable performance. Thanks to their standard dimensions, they ensure practical and trouble-free compatibility with existing gutterbox systems.

Our company manufactures all main components of the gutterbox system—including side profiles, side panels, and lids—in accordance with UIC standards (UIC 435 series). Our products can be supplied as individual components or in disassembled (knock-down) form, in line with customer requirements and international logistics and transportation standards.

In addition, other industrial baskets and material handling systems within our production portfolio are offered under the same principles, either as individual components or in disassembled (knock-down) form, providing flexible, compatible, and efficient solutions for different application areas and operational needs.

TECHNICAL SPECIFICATIONS

	ST-I216	ST-I216	ST-I216
A (width)		1200	
B (height)		1000	
C (size)	1600	2200	2600
D (weight)	162	204	232

*Measurements are given in millimeters.

Quality in products and production

Professional solution ■ for heavy loads.
